

NEWS RELEASE

Prosoft Engineering Announces Full Leopard Support for Data Rescue II.

Pleasanton, CA – November 29, 2007 – Prosoft Engineering, Inc., the developers of easy-to-use, award-winning utilities, today announced that the latest version of Data Rescue II now fully supports Apple Computer's Mac OS X Leopard operating system. The previous version of Data Rescue II was only compatible with a Leopard-based Mac if booted from the CD.

"Data Rescue II can be a real lifesaver when faced with the situation of a crashed hard drive or when trying to recover a deleted file in OS X," said President, Greg Brewer. "We're excited to announce full compatibility with Leopard-based Macs with this new version of Data Rescue II."

Availability

Data Rescue II is available for purchase online at www.prosoftengineering.com and at Apple Stores, Fry's Electronics, ClubMac, MacMall, Other World Computing, MacConnection and Amazon.com

Current owners of Data Rescue II can purchase this update for \$10 at www.prosoftengineering.com (which includes a new CD shipped).

About Prosoft Engineering

Established in 1985, Prosoft Engineering, Inc. specializes in creating professional quality software designed to be easily used by both novice and expert users. Prosoft started out as an engineering services company doing contract development work for Apple and most key Mac OS developers. Today, relying on mega-hit products like Data Rescue, Drive Genius and Netware for Mac OS, Prosoft is a major software publisher/producer with distribution partners throughout the Americas, Europe and Asia. Prosoft Engineering, Inc. is headquartered in Pleasanton, CA. Please visit the website at www.prosoftengineering.com.
