

## NEWS RELEASE

### Prosoft Engineering Announces the Release of Data Rescue II version 1.2.2.

**Pleasanton, CA – April 22, 2008** – Prosoft Engineering, Inc. announces the availability of Data Rescue II version 1.2.2 an update to its award-winning data recovery software..

#### **Data Rescue II – Emergency Hard Drive Recovery**

Do you have a corrupt hard drive or one that no longer mounts? Are other tools failing to even recognize your bad drive? Do you need to recover files that have been deleted? Data Rescue II is the best digital data recovery software on the market for recovering files from a problem hard drive or that have been previously deleted. Data Rescue II works when other tools fail. Data Rescue II is also completely safe to use since it does not attempt any risky repairs to the drive it's scanning. This is the safest, most powerful software to recover your hard drive. Data Rescue II is the same software used by many data recovery services!

#### **Data Rescue 1.2.2**

- Update to Apple's latest boot disc technology.
- Several bug fixes
- Additional improvements in speed and performance.

"We are continually improving and adding features to Data Rescue II for our users. We are dedicated to create the best hard drive recovery utility on the Mac platform. Prosoft prides itself on great customer service and support, alongside award-winning products," says Greg Brewer, CEO of Prosoft Engineering.

#### **Availability**

Data Rescue II is available for purchase online at [www.prosoftengineering.com](http://www.prosoftengineering.com) and at various Apple retailers.
