

NEWS RELEASE

Drive Genius 2 now updated to support Snow Leopard.

Pleasanton, CA – July 29, 2009 – Prosoft Engineering, Inc. announces the availability of Drive Genius 2.2, an update to its award-winning disk utility.

Drive Genius 2 – Maintain, Manage and Optimize Your Hard Drive

Is your Mac running slower? Is your hard drive filling up and you don't know why? Are you seeing the beach ball more and more? Try Drive Genius 2, the best hard drive utility on the Mac platform. Defrag, DriveSlim™, Repartition-on-the-fly and Clone are only a few of the award-winning features of Drive Genius 2. Recently awarded the Editor's Choice award from Mac Life Magazine.

Drive Genius 2.2

- Now supports Snow Leopard
- Improved defragmentation functionality
- Improved repartition performance and other improvements

"Prosoft is excited to release this new version of Drive Genius 2 that adds support for Apple's upcoming Snow Leopard operating system. Drive Genius 2.2 also adds improvements to a number of features including Defrag and Repartition. Prosoft is dedicated to producing award-winning utilities paired with excellent customer service and support," says Greg Brewer, CEO of Prosoft Engineering, Inc.

Availability

Current Drive Genius 2 users can simply auto-update their application for free within the application. A new boot DVD can be purchased from the Prosoft website for a nominal fee. Drive Genius 2 is available for purchase online at www.prosoftengineering.com and at Apple Stores.
