

**FOR IMMEDIATE RELEASE:**

**Prosoft Engineering Announces the Release of Drive Genius 2**

**Pleasanton, CA – February 12, 2008** – Prosoft Engineering, Inc. announces the availability of Drive Genius 2, the award-winning hard drive maintenance utility for the Mac.

"We're excited for this major new release to the already wildly popular Drive Genius." The new release is built upon the same award-winning foundation as the original Drive Genius. Improvements have been made to speed and overall performance as well as full support for Mac OS 10.5 (Leopard). "One of the most noticeable and eye catching changes is the all-new user interface," says Greg Brewer, CEO of Prosoft... "We previewed it at Macworld San Francisco last month and it was once again our most popular product."

**Drive Genius 2 – Maintain, Manage and Optimize your Hard Drive**

Drive Genius 2 is a disk utility with a wide array of features that allow you to maintain your hard drives; disk defrag, directory repair and repartition on-the-fly are only a few of the award-winning features found in Drive Genius 2. Optimize your drive to improve speed and performance with Drive Genius 2.

**Availability**

Drive Genius 2 is available to purchase online at [www.prosoftengineering.com](http://www.prosoftengineering.com) for \$99 and at Apple Stores, CompUSA, Fry's Electronics, ClubMac, MacMall, Other World Computing, MacConnection and Amazon.com

Current owners of Drive Genius can purchase this upgrade for \$59 at [www.prosoftengineering.com](http://www.prosoftengineering.com).

**About Prosoft Engineering**

Prosoft is a software publisher/producer focused on data recovery software and utilities to protect your data. We pride our company and products on trust, service and ease of use. Prosoft has distribution partners throughout the Americas, Europe and Asia.
