

FOR IMMEDIATE RELEASE:

JoeSoft Announces the Release of Hear

Pleasanton, CA – April 8, 2008 – JoeSoft announces the availability of Hear, a sound enhancement program for the Mac.

"Hear is a great new program that makes everything sound better on your Mac. All your music will be vastly improved, your movies will surround you with rich sound and your games will now blow you away" says Greg Brewer, CEO of Prosoft..."Once you've listened to your music or movies with Hear, you will never want to be without Hear."

Hear: your sound + music better

Hear greatly improves audio quality in movies and music throughout all of your Mac OS X applications. Hear offers a wide array of settings that are quick and easy to find, which will greatly improve the sound quality of your music, movies and games. With Hear, music is richer, movie sounds are more powerful, dialog is clearer and games will blow you out of your chair!

Availability

Hear is available to purchase online at www.JoeSoft.com for \$49.95 and at authorized partners.
