Prosoft Engineering Announces the Release of TuneTech™ for iPod®

Pleasanton, CA – September 12, 2005 - Prosoft Engineering announces the availability of TuneTech for iPod for Mac OS X.

TuneTech for iPod is a comprehensive software utility geared specifically toward iPod users.

“iPods have quickly become the hottest, must have gadget. With all the songs and files, our iPods can quickly become overloaded with files. Mechanical parts wear and fatigue, your iPod begins to operate more slowly, and eventually fails. Your only defense is to carefully monitor and manage your iPod so you can be sure it is in good health and working at peak efficiency at all times – You’ve invested a lot into your iPod and music, you want to make sure your iPod will faithfully perform and your investment is well-protected,” states Greg Brewer, CEO of Prosoft Engineering. “We are dedicated to providing a feature rich, easy to use software utility that will let you take control of your iPod, and your digital life.”

TuneTech for iPod – Maintain, Manage, and Optimize Your iPod.

TuneTech for iPod is the only comprehensive software utility geared specifically toward iPod users. Recover lost or damaged music, repair corrupted data structures, backup your iPod to an exact copy, permanently delete unwanted files, or optimize the file layout of your music. You’ve invested a lot into your iPod and music, with TuneTech for iPod, you can be sure your iPod will faithfully perform and your investment will be protected.

TuneTech for iPod’s Eight Must-Have Utilities In One Package.

- Backup: Make an exact clone of your iPod for safe keeping. Use your backup as protection against data loss.
- Optimize: Increase battery life and minimize wear-and-tear. Your songs get optimized in the order that you want to hear them, minimizing hard drive access and reducing the work your iPod has to do.
- Undelete: Accidentally deleted music? Undelete quickly recovers them in perfect condition.
- Shred: Permanently delete your songs and files from your iPod. Do your part to protect against music piracy... if you sell or donate your iPod, shred your music to prevent unauthorized use.
- Duplicate: Make an exact copy of your iPod on another iPod – perfect when you are migrating your music to a newer iPod model.
- Scan: Analyze your iPod’s hard drive for media defects that can endanger your music files.
- Info: Display detailed information about your iPod’s hard drive to enable sophisticated troubleshooting.
